- Important: Be sure to include all games, not just the round robin.

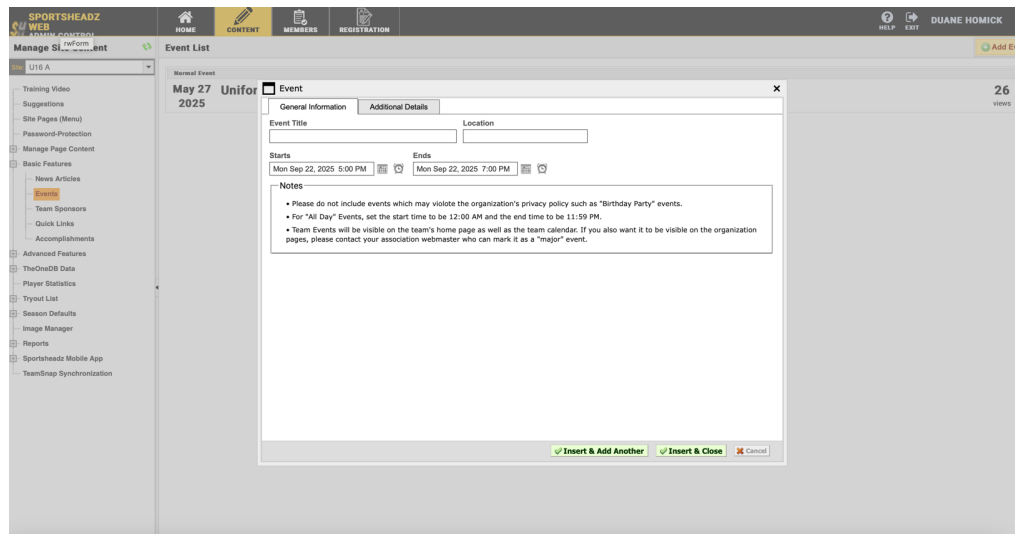

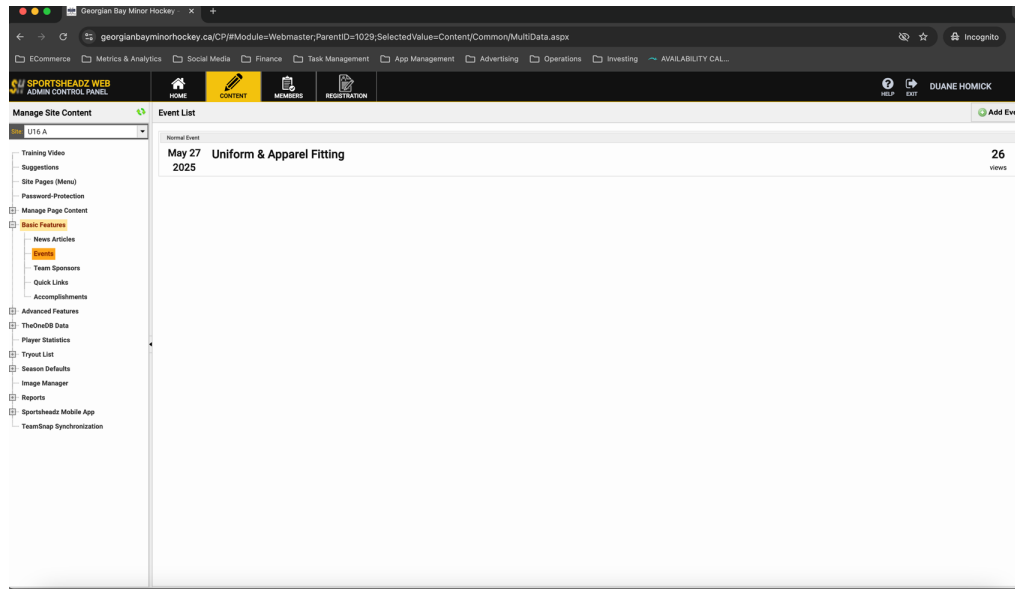

## 4.1 News Articles

- Submit news articles to your team page.
- Great examples: Tournament recaps, announcements, or team updates.

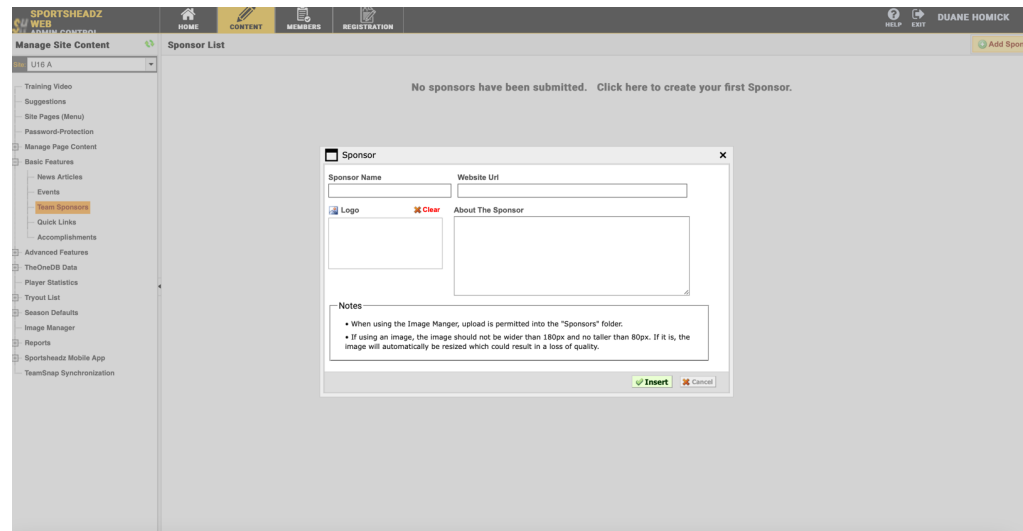

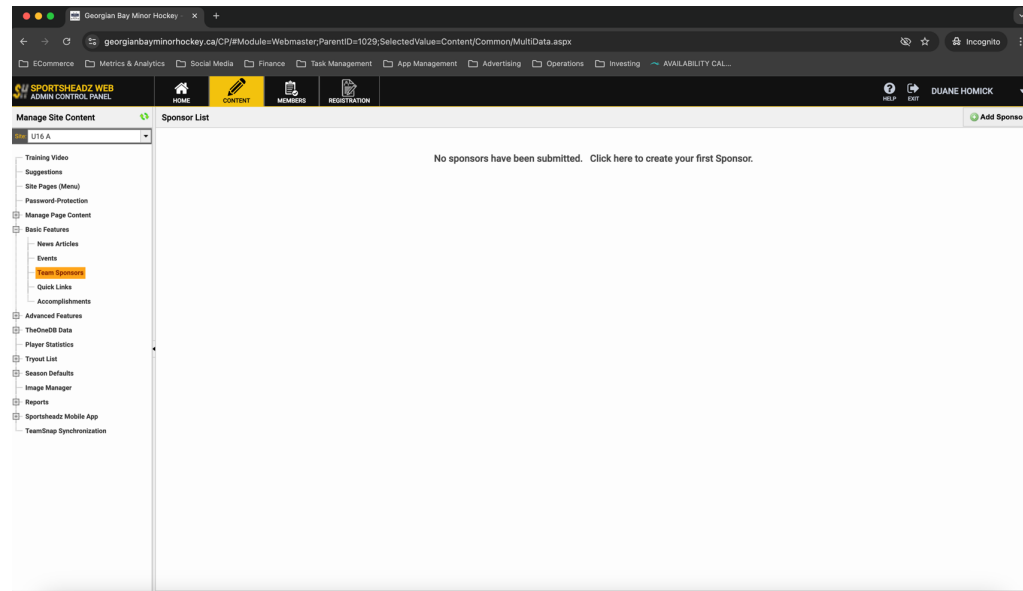

## 4.2 Team Calendar

- Add events to your team calendar.
- Examples: Team party, practices, meetings, or other important dates.

## 4.3 Sponsors

- Add supporters (e.g., banner sponsors) to the Sponsors section.
- This helps showcase those who back your team and ensures visibility.

# 5. Entering Suspensions

- Go to TheOneDB Data → Suspensions.
- Enter the details as required.

The screenshot displays the 'Manage Site Content' interface. On the left is a sidebar menu with various options, including 'TheOneDB Data' which is expanded to show 'Suspensions' (highlighted in orange) and 'Unverified Games'. The main area is titled 'Suspensions' and contains three dropdown filters: 'All Roles', 'All Suspensions', and 'All Codes'. Below these filters is a table with the following headers: 'Participant', 'Infraction', 'Date', 'Games', 'Served', and 'Notes'. The table body is currently empty.

## 6. General Best Practices

- Always double-check spelling (especially opponent names).
- Keep dates and times accurate.
- Be thorough: update all games, events, and recaps so your team's section of the site looks professional and complete.
- Remember: Everything you enter impacts your team's portion of the main website.
